# living room and dining room

Your home is a place where you can live exactly as you wish. That is why the interiors where you can finally switch off, get rid of stress and simply relax are so important. It is not their size that will encourage your loved ones sit with you for hours. It is the atmosphere, comfortable sofas and a comfortable space for spending time together. We have even more ideas and solutions for you for the arrangement of the living room and dining room to make every day spent together even more special.

new

## Patras

Discover the new classic look. Our furniture in warm shades of oak surprises not only through the quality of the accessories but also in the unique finishing. However, this is not all, as it is worth paying attention to the handles, which are like elegant jewellery, decorative for the fronts and complementing the overall shape.

SYSTEM COMPONENTS

## Nuis

The modern Nuis collection is intended for living rooms. The simple styles of the furniture contrasts with the original form of the handles, the colour of which can be changed thanks to the double-sided insert. The collection is bi-coloured, so you can choose from modern white in high gloss or the colour of natural wotan oak.

# Ruso

The Ruso collection is distinguished by its original combination of strong wood colour, black glass and modern high gloss fronts. Easy to use on a daily basis, ensured by the high quality accessories such as hinges equipped with a silent closing system. In the Ruso collection you can find many different shapes, which you can combine to create a comfortable space.

# Amsterdam

This collection is a tribute to the traditional Scandinavian style, which uses the very fashionable colours of white, oak and grey. Depending on the selected accessories, Amsterdam will provide an elegant interior with a somewhat nostalgic mood, or a purely Scandinavian one – including the typical cosy atmosphere.

# Bergen

Your refuge must have a unique character as well as stylish elegance, which you can find with the Bergen collection. The original wood colour and very interesting forms are some of its distinguishing features. Look closer at the details, the subtly "narrowed" sides of the solids. An exceptional line of furniture for exceptional interiors.

## Arosa

Furniture is like a picture in a frame. Actually, like pictures framed with passe-partout. It looks even better with a shiny black background – a synonym for elegance. An interesting touch is the asymmetric coffee table with wheels on one side only. It is easier to move, and it will never roll accidentally.

# Anticca

Elegant, almost majestic furniture owes its beauty to its striking colours. Wood grain is clearly visible against the background of fronts without handles so you cannot help looking at it. The sophisticated form is juxtaposed with delicate details of glazing and accessories.

## **Venlo**

Based on simplicity of form and modest accessories, the collection is intended for those who enjoy modern interiors. Thanks to the two colour options for the front panels you can decide whether you want your furniture in a uniform colour or to add a little glamour by choosing front panels in a gloss white.

## SYSTEM COMPONENTS

## Dinero II

As solid and simply beautiful as natural wood. Its beauty and majesty are emphasised by the thicker than normal sides, thanks to which even the chest of drawers resembles a framed picture. Thanks to the glazing, anything we place inside the cabinet takes on a very impressive look, especially in the evening when soft lighting adds depth to the interior.

### Dinero II

# upholstered furniture

When you set out to transform the bare walls of a house or flat to make it your home, it is important that the result is comfortable, to make it your refuge and a place to relax, somewhere to kick back and prepare for a new day. The world is more beautiful when we look at it in a well-rested condition. Create a great space for yourself - with a soft and comfortable sofa, corner seating or armchair. Maybe that short afternoon nap is not such a bad idea after all.

# Youth room

Children grow up fast. They discover the world and shape their own independence every day. We would like to give them the best of everything, so let's start by creating a safe space in which they will freely develop their passions, listen to fairy tales, play and fall asleep after a day full of adventures. Sit back and explore our ways to arrange the room for a toddler or a teenager.

## Karet

You can adjust the Karet collection to your child's preferences. The front panels are available in universal white and six other colour options, created at your request. Choose the one you like best, and let your child express their style! You can do it together - after all, interior design should be fun!

# Malcolm

This furniture is reminiscent of the tea chests that were carried over the sea from distant countries. And they can contain as much. Mystery is in the air - try to explore it by reading the faded inscriptions resembling stamps from distant parts of the world. Listen to the story tapped out by the handles in the form of knockers.

# place of work

We all have something to do. There are a lot of important and less important tasks that we must conscientiously perform. That is why it is so important to create a place where it is at least a bit more pleasant to work. A home office and the casual atmosphere of your own apartment will open your mind to new ideas. We know that you will spend long hours sitting there, so we have the solutions tailored to all of your needs.

# Executive

A spacious corner desk, capacious shelves ideally fitting into the height of the room and a mobile chest of drawers with swivel casters. Here's a great way to organize the interior of a comfortable office.

# bedroom and dressing room

Each day begins and ends here. It is a place for family pillow fights and the place to fight against time before going to work. Relax as much as you like thanks to our furniture, which is perfect day after day, all year round. Decorate the bedroom, which will be hard to leave, and a dressing room, where you can fit your entire collection of clothes. We made sure to provide plenty of inspiration and even more ideas to make your morning commotion really enjoyable.

**new**

## **Pori**

There are many reasons to love this bedroom. The subtle minimalism, the casual white of the furniture and the touches of warm oak colour. Instead of vivid, eye-catching colours, here there is visual harmony contrasted only with the dark wall. After all, this should be a place of peace and tranquillity.

# For the sake of a healthy sleep

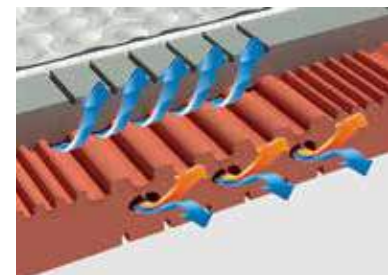

Black Red White strives to make sure that your sleep provides the best possible regeneration of your body and soul, giving you the vitality you need every day. The ForSleep collection of mattresses and frames has been designed after conducting a series of product tests and preference research among Poles. The effect of combining the gathered knowledge with the best raw materials is a collection of mattresses and frames providing comfortable sleep at an affordable price.

# Explore the advantages of our furniture

Freedom of choice

## styles

Our collections include furniture in different styles and colours that adapt to you and your interior. Modern, glamour, classic style or Scandinavian impressions - everyone will find something for themselves here.

Comfort

## soft closing system

Hinges and guides with the soft closing system are equipped with special brakes. The mechanism is activated in the final stage of closing and gently closes the locker doors and drawer fronts for even more convenience in using our furniture.

Endless possibilities

## modularity

Thanks to the modular furniture you gain even more opportunities to arrange your dream apartment. Our collections consist of many different components that can be freely connected and combined in any configuration.

We create our products with the utmost attention to detail. What matters most is the style, but we also pay attention to every detail to give you everything you need.

Natural materials

## wood and veneer

Natural wood is a material of the highest quality. Its natural look and texture and the beautiful way in which it ages makes it look extraordinarily even after many years of use. Veneer is its equivalent - thin sheets of wood with similar properties.

Safety

## tempered glass

Tempered glass is the perfect equivalent to ordinary glass. In the process of hardening, tempered glass becomes much more resistant to scratches, braking and other types of mechanical damage, making it more durable and safe.

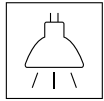

Unique climate

## LED lighting

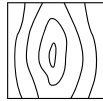

Energy-efficient LED lighting is a product which with low energy consumption will completely change the look of the interior. LED lights used in glass-door cabinets or hanging shelves bring a unique style to the room and emphasize the character of the furniture.

Information provided in the catalogue does not constitute an offer within the meaning of the Civil Code. All data contained in the catalogue is valid as of the month of providing the catalogue for printing (11/2018). Dimensions of furniture may be slightly changed. All dimensions are external dimensions (include finishing and tops). Due to the limitations of the printing technology, the colours reproduced in the catalogue may differ from the actual colours of the offered furniture and home arrangement products. Decoration used on the pictures is not included in the price of the furniture. Most of the furniture presented in the catalogue is sold in packages for self-assembly. Only correct assembly of the furniture, that is consistent with the manual, guarantees satisfaction with its use. Information concerning availability is valid as of the date of providing the catalogue for printing; in order to determine the exact order fulfilment time, please contact your dealer.

**Please note:** If you are no longer interested in this catalogue please do not throw it away. Give it to someone who may be interested in it. By doing so you contribute to the protection of the environment.
